

Energy Conservation Certificate
2012 International Residential Code
Section N1101.16

Predominant R-Values	
Ceiling _____	Walls _____ Basement Walls _____
Foundation Walls _____	Crawlspace Walls _____
Floors _____	Ducts out of conditioned spaces _____
U-Factor	Windows _____ Doors _____
HVAC/Service Water Heating	
Heating Type _____	Efficiency: _____
Cooling Type _____	Efficiency _____
Water Heater Type _____	Efficiency _____
Duct Testing	
For systems with ducts outside conditioned spaces:	
Test Type _____	Leakage Amount _____
HERS rating _____	
Other Installed Equipment	
Unvented room heater <input type="checkbox"/> Electric Furnace <input type="checkbox"/>	
Electric Baseboard Heater <input type="checkbox"/> 50% High-Efficacy Lamps <input type="checkbox"/>	
General Contractor: _____	
Energy Specialist: _____	
Form Completed By: _____	Date _____
